NO. 132

JUDGE HUNT'S FOUR WIVES.

The Marital History of the New Secretary of the Navy.

From the Baltimore News.
As there is considerable gossip floating about the country in regard to our much-married Secretary of the Navy, it would be as well perhaps, in justice to the dead as well as the living, to give the facts. William Henry Hunt was born in South Carolina, but at an early age went to reside with his father, in New Orleans. He went to Yale College but did not graduate, and on his return home studied law, and began a practice of his profession in 1874 or 1848. His brothers, Randall and Theodore G. Hunt, were distinguished Whig politicians and prominent men in the South.

Secretary Hunt's first sail on the matrimonial sea was with Miss Andrews of Mississippi, who lived but a short time. His second wife was Miss Elizabeth Ridgely of Baltimore, daughter of Commodore Charles Goodwin Ridgely, United States Navy, with whom he lived very happily and by whom he had several children.

His third mate was a widow, Mrs. Harrison, a daughter of Jacob Barker. She was much older than Mr. Hunt, and shortly after the marriage they found they had made a mistake, and agreed to disagree; she to go to Europe and he to remain in this country. While she was in Europe there was a divorce act passed by the Louisiana Legislature, containing a clause which embraced Hunt's case, and abridging the time for decrees. Another Legislature repealed this act, but while it was in force Mr. Hunt instituted suit, and obtained a decree of absolute divorce.

A year after this Mr. Hunt married Miss Adams of New Orleans. When he and his new wife reached New York on their wedding trip, the third wife, Mrs. Harrison Hunt, brought suit for divorce, alleging adultery. The Court decided that under the Louisiana law the divorce was legal. Mrs. Harrison carried the case to the United States Supreme Court, which held that the Louisiana decree was perfectly good and valid.

Something New for Singers.

The "resonator" is the name given by Signor Bach to his new invention for increasing the volume and power of the human voice when singing. This appliance is based on the office performed by the hard portion of the palate, which acts as a kind of sounding board when the mouth is open for singing, and it is for the purpose of increasing the efficiency of the palate in this respect that the resonator has been designed. It consists of a gold plate fitted to the roof of the mouth, close above the upper teeth—much in the same way as the gold plate to a set of artificial teeth—the plate having attached to it another gold plate which is convex downward in both directions. A hollow sounding board, and it may be termed, is thus formed, and is said to have a remarkable effect on the volume of sound produced by the person wearing the instrument. It is also stated that the instrument has no prejudicial effect upon the distinctness of articulation, and that it can be used without the slightest inconvenience, after moderate practice.

Saved From a Terrible Death.

The bouncing West is commonly supposed to be the bright particular hotbed of fabulous tales, but the most apocryphal cold weather story of this year comes from Litchfield, Conn. A man by the name of Wright went out in the morning to pump water for his stock. As he had not returned at noon, his wife started out to seek him. There he stood at the well pumping, literally, for his life; for through a hole in the trough the water had flowed around his boots, and, freezing solid, fastened him securely in his tracks. To keep from freezing to death the farmer had continued to pump violently all the morning, although the well soon exhausted. His wife set him free by heaping salt around his boots.

"Skunks and Indians."

There has been introduced into the Colorado House of Representatives a remarkable bill. It is referred to in the reports of the proceedings in the House as "House bill No. 78, relating to a premium on the scalps of Indians and skunks." It is entitled "An Act for the destruction of Indians and skunks," and its principal feature is the offering of a bounty of \$25 each for the scalps of either Indians or skunks. The bill has been reported favorably by the special committee.

The Austrian Empress's hunting exploits in Ireland and England are considered scandalous by the stay-at-home ladies of the court in Vienna, whose taste lies in dress, eating, balls, and theatricals.

There is a strong probability that the Wisconsin Legislature will submit to the people a woman suffrage amendment to the State Constitution.

[A NOVEL LOVE LETTER.

How An Indian Boy Confessed the Tender Passion.

From Harper's Magazine for April.
A love-letter picked up on the floor of a school with Hampton's views on co-education need not inevitably shock even pedagogic sensibilities. Written in an unknown tongue, however, with only the names to betray it, a translation by the private interpreter seemed only a proper precaution. If I confide it to the gentle reader, the Indian lovers will be neither the worse nor the wiser, while some others may find in it valuable suggestions for similar correspondence.

"NORMAL SCHOOL, Feb. 3, 1879.

"Miss— I said I like you, and I want to give you a letter. Whenever I give you letter, I want you answer to me soon. That's all I want, and I will answer to you soon after. When you give me letter, it raises me up. It makes me heart-glad, sister-in-law. When I talk, I am not saying anything foolish. Always my heart very glad. I want you let me know your thought. I always like you and love you. I am honest about what I say, I always keep in my mind. I want always we smile at each other when meet. We live happy always. I think that's best way, and you think it is and let me know. And I want to say one thing—don't say anything to Henry. I don't think that's right. And I say again, when I give a letter, keep nicely and not show to anyone. They take us away, and that is the reason don't show it. Hear me, this all I am going to say. I like you, and I love you. I won't say any more. My whole heart is shaking hands with you. I kiss you. Your lover,"

A resolution has passed the Texas Legislature requiring that women shall be employed in the State Department for every position they are competent to fill, upon the same terms and conditions as men.

Is thorough in its Medicinal Action, and yet so agreeable

to the taste that patrons often disregard our injunction to divide the lozenge into parts (say two doses) to meet their respective cases. At the outset it is especially essential to observe the directions closely till one becomes accustomed to its use—when mild action and the most satisfactory results are sure to follow.

Ladies and children, and those who dislike taking pills and nauseous medicines to secure cathartic action, are especially pleased with its agreeable qualities. Try it once, and you will esteem it highly as a safe, pleasant, and effective remedy.

Packed in bronzed tin boxes only.
Price, 25 cents.

SAUNDAY.....MARCH 19, 1901

AN ATTEMPT TO REVIVE APPRENTICESHIP.

Seven years used to be considered not too long a time to spend in learning a good trade, and apprenticeship was formerly the rule and not the exception as now. Young America is reluctant to serve an apprenticeship to anything, and seldom learns anything thoroughly. The tendency of the day is toward surface education in the work shop as well as in the school. The American is eager for results and impatient of means. He wants to get rich in a hurry, and generally marries in a hurry. He hurries through life at such a rate that he usually goes out of it in a hurry. No Jacob wait twice seven years for Rachel in the new world. The American man of business scarcely allows himself time to eat. This habit of hurrying through life has been aptly termed "the American disease."

One result of the disposition to rush through life is a lack of thoroughly competent mechanics. Boys want to be journeymen before they half know a trade. The effect is a host of incompetent mechanics. A firm of machinists in Massachusetts have found it so hard to get first-class workmen that they have made an effort to restore the apprenticeship system, and have so far met with success. The *Iron Age* gives the following outline of their plan:

"The term of apprenticeship for those beginning to learn a trade, who are under 20 years of age, is six years, in which time, under this system, it is believed an apprentice will be qualified to rank with the best journeyman, and to earn the same wages. Those who are over 20 years of age are allowed to finish their apprenticeship in five years, those who have worked in a shop are advanced according to proficiency. The beginner is first put to drawing from sketches, and then takes up projection and diagrams, and advances regularly according to his ability. It is believed that in this way one year will qualify him as well to work for drawing as four or five years ordinarily. All applicants are taken on trial for four to twelve weeks, and if not satisfactory they are then dismissed. For the first year's labor five cents per hour is paid those under eighteen, six cents to those who are eighteen, and seven cents to those who are twenty and upward; for the next year these rates are advanced to six, eight, ten, eleven and twelve cents. The firm also pays two cents per hour additional into a reserve fund, which is paid to those apprentices who finish their full term of service; for the six years this amounts to \$400."

Each apprentice under this system is required to give each week fifty-eight hours to work and nine to study. The terms of apprenticeship no doubt seem hard and the pay light to Nevada boys, but a little reflection will show them the wisdom of such a thorough course of training. It is better to be a master of some one trade than to learn to tinker a little at a dozen. Massachusetts has not run out of sensible lads, for the firm above referred to have already had more applications for apprenticeship than they can accept.

EDUCATIONAL NOTES.

The gay and wicked young writers employed upon the *S. F. Call* consider highly dangerous the example of the Spanish girl who shot a man in Los Angeles, the other day on the allegation of seduction. In a spirited leader, which betrays the hand of Mr. Pickering by its vivacious sparkle, it is justly argued that if this girl is allowed to go unpunished "the lives of God-fearing citizens will be at the mercy of every brazen husky of battered virtue who may be desirous of notoriety."

A thousand people in Chicago wear as many glass eyes. The artificial glass eye is a delicate shell or case, very light and thin, and concave so as to fit over what is left of the eye-ball. The shell is cut from a hollow bubble of glass, the iris is blown in, and then the whole is delicately recolored. One-eyed people who can afford it and are fastidious have glass eyes in duplicate, one with a small pupil for the day time, and another with a dilated pupil for evening wear.

A San Francisco politician says the way to get a seat in the California

Legislature is to own a country newspaper. Eleven newspaper men were in the last Legislature. He means to start a country newspaper himself, and if he does, will find that it is a good way to get into trouble, though perhaps not into political position.

Thirty-one women of Palestine, Ohio, have got into trouble through adopting "601" tactics for the suppression of liquor-selling. They warned a saloon keeper, the only one in the place, that he would be shot if he did not leave. He fled a complaint and twenty-two of them have been put under bail.

Carlyle thought George Washington "a poor stick." He had a pretty good opinion of himself though, as this observation made to DeQuincey shows: "We have no society, but who has in the best sense of the word? I have had none worth speaking about since I came into the world."

Much of the syrup which lovers of hotcakes consume is made of glucose, a substance manufactured by boiling corn in dilute sulphuric acid. Three hundred million pounds of glucose are manufactured in this country annually, and none of it is eaten under that name.

The Laplanders are a hospitable people, according to Lord Dufferin. He relates a story of a Lap lady who undressed his chum Fitzgerald, tucked him in bed, and gave him a hearty smack on the lips before retiring to her own couch.

"We are not only circled by a band of iron, but by a band of slang as well," confesses the editor of the *Sacramento Bee*. Sorry to hear about the iron. We knew about the slang before. Why have they hooped him up?

The Russian Minister of Foreign Affairs, in a diplomatic circular issued since the assassination of Alexander II., says "Russia has now attained her full development." This is a little cool, even for St. Petersburg.

The new Chinese treaties have been discussed by the Cabinet, and referred to the new Committee on Foreign Relations. The treaties will no doubt be favorably reported.

The "peanut hat" having found its way into Bodie, the editor of the *Free Press* bestows himself gratuitously by remarking that "it would make a calf tired to look at one of them."

This call was for the first time heard yesterday at the end of Oakland Long Wharf: "Passengers for Los Angeles, Arizona, New Mexico and overland, this way."

Work is to be commenced immediately on the tunnel under the Hudson river, at New York.

There is no fighting at the Cape just now. The armistice with the Boers has been prolonged.

Gov. Perkins has signed the bill appropriating \$50,000 for the building of a Normal School at Los Angeles.

There is nothing that will take the style out of a man so fast as marriage.

Some thirty young ladies of Gilroy are about to organize a calisthenic class for exercises at the Olympic Club-room. They propose to use the room and its apparatus one or two evenings a week, and adopt the system of elegant and graceful exercises recommended by the Chatauqua Society.

The *Silver State* says the strike in the Wild Goose is more flattering than first reported. The ore is of higher grade than supposed, varying from \$120 to \$205. The prospect now is that this mine will, in the near future, make lively times in Paradise.

A mulatto barber has eloped with a pretty and tolerably wealthy white girl of Lancaster, Ohio. No trace of the fugitives has been discovered, and as his African blood is hardly discernible in his face, it is surmised that they intend to hide among strangers.

In a Philadelphia pantomimic play a coach is drawn on the stage, two wheels come off, the coach upsets and throws the passengers, who are skillful acrobats, into grotesque attitudes in all directions.

Two allopathic physicians, one homoeopathic, and one eclectic are serving amicably together as a committee appointed by the Connecticut Legislature to draft a medical practice act.

It may, perhaps, furnish some idea of the extent of the Maine Lumber business to know that 150,000,000 feet of logs will be driven this year.

LAW OF THE STATE OF NEVADA

Passed by the Tenth Session of the Legislature, 1891.

CHAP. XVI.—An Act amendatory of an Act entitled "An Act to amend an Act entitled 'An Act concerning Jurors,' approved March 5, 1873," approved February 14, 1879.

[Approved February 8, 1881.]

The people of the State of Nevada, represented in Senate and Assembly, do enact as follows:

SECTION 1. Section One of the Act of which this Act is amendatory is amended so as to read as follows:

Section One. Section Four of said Act, entitled "An Act concerning Jurors," approved March 5, 1873, is amended so as to read as follows:

Section Four. To constitute the regular panel of trial jurors for any term of the District Court such number of names as the Judge may direct shall be drawn from the jury box. The regular panel of trial jurors may be drawn before the commencement of the term of Court, and, if so drawn, the Judge thereof must make and file with the County Clerk an order that one be drawn, and the number of jurors to be drawn must be named in the order. The drawing shall take place in the office of the County Clerk, during regular office hours, in the presence of all persons who may choose to witness it. If the panel be drawn before the commencement of the term it shall be drawn by the Judge and Clerk, or, if the Judge so directs, by any one of the County Commissioners of the county and the Clerk, and if the Judge directs that the panel be drawn by one of the County Commissioners of the county and the Clerk, the Judge must make and file with the County Clerk an order designating the name of such County Commissioner, and fixing the number of names to be drawn as trial jurors and the time at which the persons whose names are so drawn shall be required to attend in Court. The drawing shall be conducted as follows:

The number to be drawn having been previously determined by the Judge, the box containing the names of the jurors shall first be thoroughly shaken; it shall then be opened and the Judge and Clerk, or one of the County Commissioners of the county and the Clerk, if the Judge has so ordered, shall alternately draw therefrom one ballot until of non-exempt jurors the number determined upon is obtained; provided, that if the officers drawing such jury deem that the attendance of any juror whose name is so drawn cannot be conveniently obtained, by reason of the distance of the residence of such juror from the Court or other cause, his name may, in the discretion of such officers, be returned to the box and in its place the name of another juror drawn whose attendance said officers may deem can be conveniently and cheaply to the county obtained. A list of the names so obtained shall be made out and certified by the officers drawing the jury, which list shall remain in the Clerk's office, subject to inspection by any officer or attorney of the Court, and the Clerk shall immediately issue a venire, directed to the Sheriff of the county, commanding him to summon the persons so drawn as trial jurors to attend in Court at such time as the Judge may have directed, and the Sheriff shall make return of the venire at least the day before the day named for their appearance, after which the venire shall be subject to inspection by any officer or attorney of the Court.

Sec. 2. Section Two of said Act, of which this Act is amendatory, is amended so as to read as follows:

Section Two. Section Eight of the Act entitled "An Act concerning Jurors," approved March 5, 1873, is amended so as to read as follows:

Section Eight. It shall be the duty of the District Judge and any one of the County Commissioners of the county at least once in each year and as oftener as the public interest may require, to select from the jury list twenty-four persons who shall be summoned to appear as grand jurors at such time as the Judge may order; provided, that if the District Judge deems proper he may direct any one of the County Commissioners of the county and the Clerk to select the grand jurors, and such County Commissioner and Clerk, if the Judge so directs, shall select from the jury list twenty-four persons as grand jurors. If the Judge directs the grand jurors to be selected by one of the County Commissioners of the county and the Clerk the Judge must make and file with the Clerk an order designating the name of such County Commissioner, and the Judge shall in said order fix the time during the term of Court when said grand jurors shall be required to appear; and if from any cause, such as illness, or from any other cause, such grand jurors shall be required to appear, and the Clerk shall immediately issue a venire, directed to the Sheriff of the county, commanding him to summon the persons so drawn as grand jurors to attend in Court at such time as the Judge may have directed; and the Sheriff shall make return of the venire at least the day before the day named for their appearance, after which the venire shall be subject to inspection by any officer or attorney of the Court.

Sec. 3. Section Two of said Act, of which this Act is amendatory, is amended so as to read as follows:

Section Two. Section Eight of the Act entitled "An Act concerning Jurors," approved March 5, 1873, is amended so as to read as follows:

Section Eight. It shall be the duty of the District Judge and any one of the County Commissioners of the county at least once in each year and as oftener as the public interest may require, to select from the jury list twenty-four persons who shall be summoned to appear as grand jurors at such time as the Judge may order; provided, that if the District Judge deems proper he may direct any one of the County Commissioners of the county and the Clerk to select the grand jurors, and such County Commissioner and Clerk, if the Judge so directs, shall select from the jury list twenty-four persons as grand jurors. If the Judge directs the grand jurors to be selected by one of the County Commissioners of the county and the Clerk the Judge must make and file with the Clerk an order designating the name of such County Commissioner, and the Judge shall in said order fix the time during the term of Court when said grand jurors shall be required to appear; and if from any cause, such as illness, or from any other cause, such grand jurors shall be required to appear, and the Clerk shall immediately issue a venire, directed to the Sheriff of the county, commanding him to summon the persons so drawn as grand jurors to attend in Court at such time as the Judge may have directed; and the Sheriff shall make return of the venire at least the day before the day named for their appearance, after which the venire shall be subject to inspection by any officer or attorney of the Court.

Sec. 4. All Acts and parts of Acts in so far as they conflict with the provisions of this Act are hereby repealed.

CHAP. XVII.—An Act to amend an Act entitled "An Act relating to the burial of the dead of incorporated cities in the State of Nevada," approved March 8, 1879.

[Approved February 8, 1881.]

The people of the State of Nevada,

represented in Senate and Assembly, do enact as follows:

SECTION 1. Section Two of the above-entitled Act is amended so as to read as follows:

Section Two. It shall be the duty of any undertaker or other person obtaining the certificate mentioned in the first section of this Act, before burying such deceased person, to present such certificate to the Coroner of the county within which such deceased person shall have died. The said Coroner, after being satisfied of the truth of the facts set forth in said certificate, shall issue a permit to the person presenting such certificate to bury the deceased person named in said certificate, or shall take such action under the law as the facts set forth in said certificate shall warrant. Said permit shall be in writing, signed by the Coroner, and shall set forth the facts under which it is issued. Said Coroner shall file in his office all physicians' certificates so presented to him and shall keep a record of the same and a memorandum of all permits so issued by him, which records and memoranda he shall turn over to his successor in office as a part of the public records of his office.

U. S. MINING LAWS.

Some Information for Prospectors and Others.

AGRICULTURAL OR MINERAL LANDS.

Where land is of little if any value for agricultural purposes, but it is essential to the proper development of mining claims, it should be disposed of under the mining Act. Where lands containing valuable mineral deposits have been included in an agricultural entry, said entry will be canceled at any time prior to issuance of patent, upon satisfactory evidence of the existence of such valuable deposits. Where valuable deposits of mineral are discovered upon a tract after the same has been entered as agricultural, but before patent has been issued, the parties claiming the mine may make application for patent for same, and the agricultural entry will be cancelled to that portion of the land embraced by said mining claim. Where mineral deposits are discovered on agricultural lands after the patent has been issued to an agricultural claimant, they pass with the patent.

Agricultural college scrip cannot be received in payment for claims.

ALIENS.

A foreigner may make a mining location and dispose of it, provided he becomes a citizen before disposing of the mine. Proof that the party was not a citizen before disposing of his claim must be affirmatively shown. Locators and intermediate owners other than applicants will not be presumed aliens in the absence of allegation or objection prior to issuance of patent. The portion of a mining claim sold to an alien cannot be patented while such owner is alien; but on his declaration to become a citizen, his right dates back to his purchase, and he may thereupon secure United States patent for his claim.

CROSS-LEDGES.

Revised Statutes, Section 2336.

Where two or more ledges cross or intersect each other, priority of title shall govern, and such prior location shall be entitled to all ore or mineral contained within the space of intersection, but the subsequent location shall have the right of way through the space of intersection for the purpose of the convenient working of the mine. And where two or more veins unite, the oldest or prior location shall take the vein below the point of union, including all the space of intersection.

TUNNELS.

There is no authority of law for a tunnel location 3,000 by 1,500 feet. A proper location is the width of the tunnel for 3,000 feet. There is no provision in law for patenting tunnel locations, but lodes discovered in running a tunnel may be patented in like manner as other lodes. The right is granted to tunnel owners, 1,500 feet of each blind lode, not previously known to exist, which may be discovered in their tunnel. When a lode is struck or discovered for the first time in running a tunnel, the tunnel owners have the option of recording their claim of 4,500 feet all on one side of the point of discovery or intersection, or partly on one side thereof and partly on the other. Prospecting for blind lodes is prohibited on the line of a located tunnel, while the tunnel is in progress, but other parties are in no way barred from prospecting for blind lodes or running tunnels, so long as they keep without the line of such tunnel.

An ingenious mother who had long been bothered by the fastidiousness of her children at table, has at last discovered a way to circumvent them. She places what she wants each child to eat before its neighbor at the table, and, of course, each cries for what the other has, and the ends of justice are promoted.

Timothy Maher, the strongest man in New Haven, is dead. He could hold 600 pounds suspended from his middle finger.

Teacher: "Why did Moses' mother hide him among the reeds?" Pupil: "Because she didn't want to have him vaccinated."

The smelter at Walker river is turning out three tons of fine copper ingots per day.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold. A few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while its wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since its first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts. to 50 cts. per bottle. Sold by all druggists. Price 5 cts. Sold by Osburn & Shoemaker Drug Co., Reno, Nevada.

Before sending below or East, examine Goegge's fine assortment of jewelry and watches.

I will sell cheap for cash or installments the fine lot lying between Bishop Whittaker's Seminary and Mount Hope Nurseries, Reno, Nevada. These are the finest building lots in the State. STEPHEN CONNER, 7-22

Slaven's Cherry Tooth Paste.

An aromatic combination for preservation of the Teeth and Gums. It is far superior to any preparation of its kind in the market. In large handsome Opa pots, price 50 cents for sale by Osburn & Shoemaker.

If you want to save money, go to J. Fredrick and buy your watches, clocks and jewelry, where there is no advantage taken. Feb 15

One look at Goegge's display informs the public who carries the best and most substantial stock in Reno. Jan 11-17

For Cheap Drugs, Toilet Articles, Patent Medicines, Perfumery, etc., call at Jno. C. Myers' Drug Store, two doors west of the Postoffice. Jan 16

For a good New Orleans Chocolate Cocktail—the finest drink in the State, and for the famous Kiekerbein so well known in San Francisco to the lovers of fine drink, and for the genuine Old Ice and Rock, go to the Capital Saloon, Commercial Row, next to the Postoffice, as these drinks are only sold there. Feb 7

What Dr. Gardner Says:

Toronto, Ohio, January 1, 1891.—The California Tonic Company, Gentlemen: Please send immediately one gross of your Pine and Eucalyptus Porus Plasters. I have been using them in my practice for the past three months and find their effects most wonderful, especially in Lung troubles and all affections of the Spine and Kidneys. In my judgment they are far superior to any Plasters manufactured. I can conscientiously recommend them to my professional brethren. Oct 20-ly H. H. GARDNER, M. D.

Mar 12-1mo

All watches and jewelry repaired or made to order, is guaranteed as represented at I. Fredrick's. Feb 15

Have you seen Goegge's new invoice of Jewelry, right from the manufacturers' hands. Feb 15

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Inman, Station D, New York City, marked D-W.

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints? If you think so call at our store and get a bottle of Shiloh's Vitalizer. Every bottle has a printed guarantee on it. Use accordingly and if it does you no good it will cost you nothing. Sold by Osburn & Shoemaker, Reno, Nevada. Nov 24-17

Capitol Saloon.

At this place there has just been received large quantities of the following brands of liquors: Jesse Moore's A. A., Old Bourbon and J. B. Cutler O. S. whiskey; Martell's old Cognac and other Brandy; the famous and famous Glenlivet and the famous Scotch whiskey, fine Jamaica and N. E. rum, sherry and port wine and the finest Bit of Cognac. Remember the new place, Capitol Saloon, Commercial Row, next door to Postoffice, Reno, Nevada. Mar 1-16 M. VUCOVICH & CO.

Workingmen.

Before you begin your heavy spring work after a winter of relaxation, your system needs strengthening and ceasing to prevent an attack of a cold, influenza or spring fever, or some other spring sickness that will add to your aches and pains. You will save time, much sickness and great expense if you will use a bottle of Sarsaparilla in your family this month. Don't wait. See another column.

Throw Physic to the Dogs.

A great portion of the suffering and distress in this country is due to the fact that the people take too much physic and too many drugs. If you want to preserve your health, save doctors' and druggists' bills, use the California Pine and Eucalyptus orons Plasters for all pains. For sale by Osburn & Shoemaker.

NEW TO-DAY.

Sheriff's Sale.

UNDER AND BY VIRTUE OF A WRIT of execution issued out of the District Court of the Second Judicial District of Nevada, in and for the County of Washoe, I, duly directed and delivered, on a judgment rendered in said Court in favor of William. Peck & Company v. James Mayberry for the sum of \$3,944.94 and interest, and costs amounting to \$47.45 and according to the terms of said writ, I have levied on the following described property, (having been attached by me under a writ of attachment in the case of D. C. Greve v. James Mayberry and a writ of attachment in the case of the Agent of the Nevada Bank, of San Francisco, vs. James Mayberry, levy made in the order named), to-wit:

Seven head horses and mares. One stallion. Twenty-seven head cows. One Bull. Four loading wagons. Two four-horse wagons. One thoroughbred wagon. Twenty-one logs and pigs. One carriage. Fifty-four sacks wheat. Twenty sacks alfalfa seed. One fairbank's scales. Two saddles. Two bridles. Ten sets harness. One lot shovels. One box stidges and wedges. One lot box saws. Two kegs nails. One hand truck. Six one-cent nails. One lot carpenter tools. One lot pipe tools. One pair stillard. One spring scale. Eleven whiffles. Four bars steel. One grindsome. Four coils rope. One box pick handles. One box at handies. One box cutter. Four drills. One lot merchandise. One piano. One safe. And I hereby give public notice, as required of me by law, that on

Tuesday, the Twenty-ninth Day of March, A. D. 1881,

Between the hours of 9 o'clock A. M., and 5 o'clock P. M., of said day, to-wit: At the hour of 10 o'clock A. M., on the ranch of the above named James Mayberry about five miles west of Reno, I will sell at public auction, to the highest bidder for cash, or so much thereof as may be necessary to satisfy the above named liens, to-wit: the writ of attachment in the two last named causes above mentioned and this writ of execution.

W. A. WALKER, Sheriff of Washoe County.

Reno, March 19, 1881.

JOTTINGS.

—Overman is assessed fifty-cents.

—Take your spring bath at Pechner's to-morrow.

—The dance at Huffaker's last night netted \$37 for Mr. Lambroth. Reno was well represented.

—Catfish are beginning to bite in Washoe Lake, and ducks are said to abound there now.

—The river is still too cold for bathing but Pechner's baths can be made as warm as desired.

—Masons are requested to remember the Lodge meeting to-night. There will be work in the first degree.

—The Board of Commissioners for the Insane will visit Reno on Wednesday next, to fix the site of the Asylum.

—The children in the family of Mr. Monroe, who recently removed from Michigan to Reno, are sick with measles.

—The prophetic soul of Mrs. Bowers will soon be invoked to disclose the winning numbers in the State lottery.

—Stillness reigns in the Justice's Court-room, and Constable Avery was found this afternoon calmly smoking the pipe of peace within its portals.

—The demurrer in the case of Peter Dalton was overruled by Justice Young. The trial has been set for Wednesday next.

—Jessie Jamison, not Jessie Finlayson as announced by mistake in the programme last evening, will sing in the duet with Richard Jose, at the Reform Club entertainment this evening.

—Henry Johnson has already made arrangements to have a pipe laid from the new brewery to the cellar of Schooling's store, so that he can draw beer fresh from the vats. Becker will of course put a meter on the pipe.

THE BIG WOOD CONTRACT.

Negotiations Still Pending—Surveys Being Made in the Mountains.

Nothing has yet been decided in relation to the wood contract talked of between Mayberry and the bonanza people, but it is thought probable that a contract will ultimately be arranged. The result of the pending negotiations will depend upon what rates can be secured for transportation over the V. & T. As Mr. Yerington has large interests in wood, of course he cannot be expected to favor the Mayberry project. Should the contract be let, it will be for an immense quantity of wood, rumor putting the figures at all the way from 40,000 to 200,000 cords.

Mayberry and A. H. Smith are now in the mountains about Hunter's creek making surveys with a view to the construction of flumes, etc. It is said that the proposal is to build a flume all the way from Mayberry's ranch to the V. & T. track here.

How to Cross the Truckee Under Water.

This ingenious method of crossing streams might be tried with advantage by anglers in the Truckee river, who, no matter on which bank they may stand, invariably think themselves on the wrong side of the stream: "The following is an extract from a survey report by Lieut. (now Major) Woodthorpe, R. E., written in 1876, describing the method which he saw practiced by men of the Naga tribes, for crossing a deep stream too rapid for their feeble powers of swimming, and about 20 yards wide: 'Taking large stones in their hands, they waded in up to their necks, and throwing up their legs and lowering their hands, the stones carried them to the bottom, along which they crept on all fours till they reached the shallows on the other side.' The rough bottom afforded them sufficient hold to withstand the modified current and resist flotation."

Comfort for Jupiter Stockholders.

Gen. R. M. Clarke, counsel for the Jupiter Co. in the recent suit against the Bodie, thus writes to the Bodie Free Press concerning the case: "The action was trespass, and one of the questions, and the only one passed upon by the jury, was whether the Bodie Company had entered or trespassed upon any ledge which has its top within the Jupiter side lines. The verdict decides that it was not proved that defendant entered or trespassed upon any such ledge. This leaves the title unsettled and still in dispute, and leaves the Jupiter Company in possession of all the ground which it claimed before the suit, and all the ledges which have their apices within the side lines of the Jupiter locations extended down vertically."

Poker in Eureka.

Says the Sentinel: "A lively poker game was in progress in one of the cozy little rooms on Main street, not far from Bateman, yesterday afternoon, which was characterized by some 'stiff hands.' The game played in this place is a little peculiar. The deuces and trays are left out, and a flush may be drawn to, a straight of the same color being the 'boss.' One of the gentlemen of the quartette secured four aces from the deal, and another captured the 9, 10, 8 and 6 of the same color. Both drew one card, and the latter got his 7 of the shade to fill. There was a limit to the betting, however, \$1.50 being the highest allowed at one time, but the man with the four aces got up to \$15, and then called his opponent."

Nevada's New Jury Law.

There is heretofore to be much time saved in impeding juries in Nevada. The passage of the following act by the late Legislature disposes of many of the customary modes of delaying a trial, and packing the jury: "Every qualified elector of the State, whether registered or not, who has not been convicted of treason, felony, or other infamous crime, and who is not rendered incapable by reason of physical or mental infirmity, is a qualified juror in the county in which he resides, or the county to which it is attached for judicial purposes."

Wants His Money Back.

Leathers, one of the Pyramid Lake fishermen whose pardon has just come to hand, paid his fine of \$500 shortly after conviction, and also costs amounting to \$300. The question has arisen, Does the pardon of Leathers entitle him to a return of the money paid? Leathers thinks it does, and has made application to the proper authorities to get his money back.

NEW SCHOOL LAW.

Trustees Forbidden to Contract Debts for Public Schools.

The following important amendment to the School Laws of the State of Nevada was passed at the last session of the Legislature, and approved March 7.

"When the State and county money to which any district is entitled is not sufficient to keep the school open in such district at least three months in each year, it is hereby made the duty of the Trustees of each district to levy, and they shall levy, a district tax upon the taxable property in such district sufficient to raise an amount, which, together with the State and county money to which such district is entitled, as will keep a school open three months in each year, and such tax shall be assessed, equalized and collected in the manner prescribed for assessing, equalizing and collecting taxes voted for furnishing additional school facilities in Section 41 and 42 of this Act. And it shall not be lawful for the Trustees of any School District, the fund of which is exhausted, to incur any debt, or pledge the credit of their district for any amount that cannot be paid by the income of the district during the year in which said liabilities are incurred. Any contract made in violation of the provisions of this section shall be null and void."

A Settlement of the Miners' War at Lewis.

The Silver State is informed that the mining troubles at Lewis have been amicably settled. The Miners' Union carried its point, and about forty miners have been or will be put to work at \$4 per day. During the trouble, the mine was allowed to fill up with water until it flowed in a large stream from the mouth of the incline on the surface. Much danger from caving is apprehended from this, as the hanging or back ground has always been considered very shaky, and accidents are predicted in consequence. The Starr & Grove mill is running its fifteen stamps steadily on good ore, and as soon as the work of putting in five extra stamps in the Eagle mill (making it a fifteen-stamp mill) is completed, which will be in a few days, thirty stamps will be in full blast in this district.

Becker's Brewery.

The work of digging the cellar for Becker's brewery is going ahead. The site of the building is on Sierra street, at the corner of the alley running back of the Masonic building. The cellar is to be eleven feet deep, and its other dimensions are 26x50. The building will be of wood, two stories in height, and 26x70 feet on the ground. The brewery will be completed and in operation about May 1. Mr. Becker intends to make a beer resembling the best made in Sacramento. He has had experience as a brewer, and knows what good beer is and how to make it. His enterprise should prove a success.

McKenzie at Salt Lake.

D. Banks McKenzie is having great success in his temperance lectures at Salt Lake, as the following from the Tribune shows: "The cause of temperance again attracted a large crowd to the hall last night to listen to the earnest and kind appeal of Dr. McKenzie, who appears to be a general favorite with all classes of society. His audience last night was kept in a continual state of enthusiasm, his speeches being delivered so forcibly and pathetically that his hearers are led according to his will."

At the conclusion of the meeting eighteen persons signed the pledge. The meetings are to be kept up nightly.

Goonyones in the Ditches.

N. W. Roff says goonyones may be found in the little stream back of his house, in the month of April. The stream conveys to the river waste water from the English mill ditch. The fish are sometimes seen running down the stream in great numbers, and have been heard to make a great deal of noise in their descent. Mr. Roff one night caught fifty or sixty of the descending fish in a net. They were not large, weighing about half a pound each. He says they differ from the fish called suckers.

Hatching Chickens By Hot Air.

C. H. Merrill is now "running" the chicken ranch north of the Fair grounds. He hatches out chickens in hot-air incubators. Four weeks ago he hatched out 175 chickens from 200 eggs, and yesterday he got 100 chickens from 110 eggs. To-morrow another hundred chickens will be fighting their way out of the shell. The chicks which were hatched four weeks ago are looking well.

PERSONAL.

D. McFarland has been sick, but is out again.

Irvin Ayers has arrived from Oakland, on his way to Camp Bidwell.

H. L. Fish is prepared to attend to business relating to the rental of stores and houses. He does all business well.

Mrs. N. J. Roff has been ill for several days, but is recovering. Miss Mollie has been earning laurels as a housekeeper.

Frank Armagh, the well-known cattle dealer of Nevada City, leaves for home this evening. He has bought a fine lot of cattle here which will be shipped to-night.

A Bridge of Snow.

The Downville Messenger describes an interesting spectacle to be seen on the East Fork of the Yuba river, about five miles from Downville. It is an immense snow-slide which completely covers the river for a distance of several hundred feet. This slide formed a year ago this winter, and was then perhaps 75 feet deep. The summer sun of last year failed to melt it, and it is now, with some of this winter's snow, at least forty feet in depth, the old snow being as hard as ice almost. The river has worn its way through and the arch is as regular as though formed by human hands. There will doubtless be plenty of snow there all the coming summer, as it lies in a gorge where the sun strikes it only a few hours during the day.

A Cool Spot in the Comstock.

The Enterprise says: "The Union-Mexican winze is now down 40 feet below the 2,700 level. It has passed through streaks of various kinds of vein material—a heavy body of clay among other things—and is now in birdseye porphyry. All this is very promising, as mining men well know. A curious thing about this winze—and a thing the like of which has never before been seen on the Comstock—is that it is quite cool and comfortable. The men work right along without the slightest inconvenience. Even the water coming in is cool, although the depth below the surface is 2,740 feet. What this may portend remains to be seen."

Golden Boulders.

People from Silver City tell the Gold Hill News that men are making a good deal of money there by mining and milling rock from the surface or near the surface. Scheel is doing remarkably well with his mine. The arastas and mills along the canyon are all busy. A boulder weighing 3,160 pounds was recently milled from near Silver City, and yielded over \$300 in gold. Another from near the same place, and weighing 1,000 pounds, gave \$97 in gold. Men have been running around these rocks for years, and there are more of the same sort left.

What Mines Are Hoisting.

A San Francisco paper recently said that only 8 hoisting works on the Comstock were in operation. That was not right. There are twenty-five engaged in hoisting, though unhappily they are not hoisting much of value. The following are the names of works in operation: Original Keg shaft, Andes, Scorpion, C. & C. shaft, Osbaston shaft, Savage, Hale and Norcross, Combination shaft, Bullion, (formerly the Ward shaft), Imperial, Yellow Jacket, Crown Point, Kentucky, New York, Belcher air shaft, Belcher old works, Overman, Caledonia, Forman shaft, Alta, Silver Hill and Sierra (Devil's Gate).

A Considerate Husband's Nice Calculation.

A Nob Hill man recently agreed to sell his residence for \$500, but the Leader says that when the day came for the transfer he told the expectant purchaser that his wife was in hysterics about the trade "and he guessed he'd have to back out." The purchaser complained and finally asked how much would induce him to sell. "Well," he replied, after carefully considering the matter, "give me \$25 more and we'll let her cry."

No Court.

Judge King failed to put in an appearance to-day. Hence the District Court has not been in session. The bridge was lined with lawyers at one o'clock, awaiting the arrival of the Judicial Mind.

Cattle Shipments.

Twelve carloads of cattle will be shipped by Lee this evening to California; five to Grayson, Harold & Co; four to Moffat Bros., and three to Frank Armagh.

BY TELEGRAPH.

Republicans in Control of the Senate.

WASHINGTON, March 18.

Within an hour after the Senate met the Republicans had control of that body and secured the appointment of the Committees agreed upon in their caucus. This was effected by the vote of Mahone and the casting vote of Arthur. An immense audience was present—in fact, too large a one for comfort or the seating capacity of the galleries. The floor of the Senate was also crowded with distinguished visitors, including some members of the Cabinet and many Representatives.

The proceedings moved along in an orderly manner, with no apparent excitement. As soon as Senator Fry was sworn in, Anthony, Chairman of the Republican caucus, offered the list of committees prepared in caucus as an amendment to the resolution offered a number of days ago by Pendleton. The yeas and nays were ordered on agreeing to the resolution, and they were taken in almost perfect silence. When the name of Mahone was called and he responded in the affirmative, a sigh of relief went up from hundreds of those present. The vote stood 37 to 37, and the Vice-President said that the vote being a tie he would vote in the affirmative and declare the resolution adopted.

The First Through Train Over the Southern Pacific.

OAKLAND, March 18.

The first overland train for Kansas City via Arizona, Mexico and Colorado, left Long Wharf this morning at 8:45 o'clock. It consisted of two baggage and express cars, two sleepers and two coaches. These are entirely new—made by Bacon & Co., of Ohio—and in large letters the words "Southern Pacific of Arizona," are painted on the side. The coaches and sleepers are elegantly finished and provided with all modern improvements. About thirty through passengers were on board the train, which was in charge of J. Massie, conductor, and Ed. Littlejohn, engineer. The running time will be to Deming, New Mexico, 60 hours; distance, 1,300 miles. It will be called the Mexico Express. The fare is the same to Kansas City via the old route. Time to Kansas City, four days and a half.

Death of Ex-Assemblyman Adams.

SAN FRANCISCO, March 18.

At 10:15 o'clock last night James Adams, who was shot by Adolph Schander on Monday night, breathed his last. At 10:20 Schander and Jas. Oliver were booked for murder. About half an hour before Adams died he made another statement of the shooting, which did not differ materially from the first one, except that he was more confident that he was going to die.

Church Notices.

Service at Trinity church to-morrow as usual, Rev. W. R. Jenvey officiating.

Baptist church—Prayer meeting at 11 a. m. every Sunday, and Sunday school immediately following.

Congregational church, G. F. G. Morgan pastor—Service to-morrow morning and evening. Sunday school as usual.

A Good Housewife.

The good housewife, when she is giving her house its spring renovating, should bear in mind that the dear inmates of her house are more precious than many houses, and that their systems need cleansing by purifying the blood, regulating the stomach and bowels to prevent and cure the diseases arising from spring malaria and miasma, and she must know that there is nothing that will do so perfectly and surely as Hop Bitters, the purest and best of medicines. See other column.

THE WHIPPING POST IN VIRGINIA.

Twenty Lashes on the Back for Stealing a Parcel of Clothing.

From the Richmond State.

Frederick William Davies was before Police Justice Richardson this morning charged with stealing a lot of clothing valued at \$20 from a boarding house on Fourteenth street, the property of Francis Sawyer, James Muudin, and Martin Redding. When the case was called up the accused pleaded guilty. The witnesses said that Davies came to the house Saturday night, and yesterday he was seen leaving the house with a bundle under his arm. The landlady's suspicions were aroused, and upon investigation it was discovered that clothing belonging to some of the boarders had been stolen. The police were notified, and Sergeant Jester of the lower police district took the case in hand, and succeeded in arresting Davies in the evening, and subsequently recovered the clothing, which had been pawned for three dollars.

The Justice found Davies guilty and sentenced him to be punished with twenty stripes and to leave the city immediately. The accused is a young man, 19 years of age, with light hair, large blue eyes, smooth face, about five feet six inches in height, and has not the appearance of being a thief.

Davies said that he was a native of Cardiff, Wales, and was educated at London College, Bridgewater, England, for the ministry. He arrived in this country last December in search of employment. Finding he could not secure a position in New York he left for Philadelphia, where he was also unsuccessful. He arrived here Saturday night without money, and not being able to pay his board bill, stole the clothing to get money.

Among the articles found in the possession of the accused were two handsome prayer books, upon the flyleaf of which was written, "Presented to F. W. Davies by B. P. Lambertson, Trinity Church, New York." Also a diary in which was written, "To Frederick William Davies, Lonsdale College, Bridgewater, Sept. 26, 1880 by his friend Harry Owen Brown."

The crest emblazoned on a San Francisco millionaire's carriage, a rising sun, is considered appropriate, because he has risen from stage driving and his wife from domestic service.

Young women are sold by auction in the West. The sales are made at social gatherings for charitable purposes, and the proprietorship does not extend beyond the occasion.

The King of Portugal's translation of Shakespeare has had a very large sale; his Majesty's royalty on the translation has already yielded him \$5,000.

DR. SPINNEY

NO. 11 KEARNEY STREET.

San Francisco, Cal.

Treat All Chronic and Special Diseases

YOUNG MEN

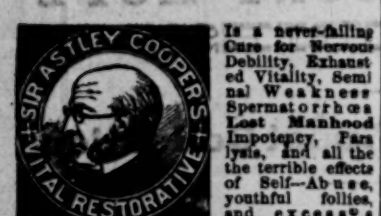

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever sold at the altar of suffering humanity. DR. SPINNEY will guarantee to furnish you with a cure of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the bladder, often accompanied by slight smarting or burning sensation and a weakening of the system to a manner that the patient cannot account for. On examining the urinary deposits aropy sediment will often be found, and some small particles, which men will appear, or the color will be of a milky hue, again changing to a dark and turbid appearance. There are many men who die of the difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in such cases, and a healthy restoration of the genital-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation Free. Thorough examination and advice. P. S. For private diseases of short standing a full course of medicine sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars Call or address DR. SPINNEY & CO. No. 11 Kearney Street, San Francisco. Jan-24-dw

THE GREAT ENGLISH REMEDY

Is a never-failing cure for Nervous Debility, Exhausted Vitality, Seminal Weakness, Impotency, Paralysis, and all the terrible effects of Self-Abuse, youthful follies, and excesses in manly years—such as Loss of Memory, Lassitude, Nocturnal Emission, Aversion to Society, Dimness of Vision, Noises in the Head, the vital fluid passing unobscured in the urine, and many other diseases that lead to insanity and death. DR. MINTIE will agree to forfeit Five Hundred Dollars for a case of this kind, if the VITAL RESTORATIVE (under his special advice and treatment) will not cure, or if any further injury or indiscretion is found in it. DR. MINTIE treats all Private Diseases successfully without mercury. Consultation Free. Thorough examination and advice, including analysis of urine, at \$2.00. Price of the VITAL RESTORATIVE, 50¢ per bottle, or four times the quantity, \$2.00; sent to any address upon receipt of price, or C. O. D., secure from observation, and in private mail as desired, by A. R. MINTIE, M. D. 11 Kearney Street, San Francisco, Cal.
